**FOR IMMEDIATE RELEASE**

**Wenger's receives PA Senate Resolution  
recognizing ISO Certification**

Rheems, PA (September 29, 2004)--On Sunday, September 26, Pennsylvania State Senator Noah Wenger presented a resolution to Wenger's Feed Mill, Inc. for its commitment to high standards and its "unique achievement of simultaneous multiple certifications under the International Organization for Standards (ISO)."

In April, Wenger's Feed Mill, Inc. became the first feed manufacturer in North America to achieve ISO 9001:2000 (Quality), ISO 14001:1996 (Environmental Management), and OHSAS 18001:1999 (Health and Safety) certifications in the design, manufacture, and delivery of feeds at their Pennsylvania mills. Based in Geneva, Switzerland, ISO is the International Organization for Standards. ISO standards are internationally-recognized and audited annually by independent, third-parties.

Senator Noah Wenger sponsored the resolution in July and formerly presented it to Wenger's at the Rheems-based company's employee picnic. "We were honored to be recognized by Senator Wenger and the Pennsylvania State Senate for our achievement in quality, environmental management, and health and safety," noted Chief Administrative Officer Jamie Rowley. "This was a total effort that could not have been achieved without the full commitment of every employee."

Wenger's Feed Mill, Inc. is a leading supplier of feed and allied services in the Mid-Atlantic region. Wenger's management system is ISO-certified to ensure customers receive a consistent and reliable product delivered in a safe and efficient manner. Wenger's also complies with HACCP principles for food safety and security. Wenger's Feed Mill, Inc.: Quality Feed for Quality Food.™
