

SoyChoice™

SoyChoice™

SoyChoice™, a premium expelled soybean meal, is manufactured using heat and pressure to remove the oil and ensure the best digestibility. No chemicals or solvents are used in the production process of this all-natural meal.

### **A Proven Performer**

SoyChoice™ provides the nutrients needed for top production. High protein bypass values deliver superior milk yields. Penn State evaluated SoyChoice™ in their dairy herd and concluded that, “the calculated income over feed costs was 3.9% greater for (SoyChoice™)” compared to a competitive product due to better milk yields.\*

\*Chung Y-H, Heyler, K.S., Hartzell, J.A., Ishler V.A., & Varga, G.A. (2008) Effects of an extruder-expelled soybean meal product on milk production and components for Holstein dairy cows, *Journal of Dairy Science*, 91, 487.

## Proven Consistency

Independent feed laboratory testing shows SoyChoice™ provides consistent crude protein, moisture, and fat levels. Wenger's strict production controls and quality assurance programs are best in class.

	Moisture		Crude Protein		Crude Fat	
	%	SD	%	SD	%	SD
SoyChoice™	7.8	0.64	44.0	0.87	6.50	0.47
Full-Fat Soybeans	11.4	1.5	35.2	1.5	19.2	1.4
Blood Meal	5.7	4.0	89.7	5.9	0.8	1.0
Dry Distillers Grains	11.8	1.3	27.6	1.3	10.4	0.7
Corn Gluten Meal	10.5	1.5	60.6	2.9	2.5	1.5

SD= Standard Deviation - Measure of variability for each nutrient. A lower SD represents a product with lower variability for the nutrient.

## More Efficient than Roasted Beans

SoyChoice™ delivers a superior nutritional and economical value compared to full fat beans. The manufacturing process increases the nutritional value of the beans. Reducing the fat content allows more soy to be fed while maintaining correct energy levels.

## A Great Value

Features	Benefit	Value
Heat Treated	Increases rumen undegradable protein	Supports high milk production
Consistent	Accurate formulation	Lowers feed costs
7% soy oil (fat)	Provides energy without overwhelming the rumen	Supports high milk production
Modern ISO-certified production facility	Plant follows strict operating guidelines and audits	Consistency
University tested	Proven results	Consistency
Regularly tested	High quality	Consistency

## Triple Flex Program

- **Buy SoyChoice™:** With a 48-hour lead time, an order can be placed for a minimum of 12 tons.
- **Convert beans to SoyChoice™:** Bank your beans to be processed into SoyChoice™
- **Book SoyChoice™:** Lock in your future needs for SoyChoice™ at a fixed price.

SoyChoice™ can be delivered or picked up at our Rheems, Pennsylvania Soybean Processing Plant.

**To order, call 1-800-692-6008, Monday-Friday, 8 a.m. to 5 p.m.**
