FOR IMMEDIATE RELEASE

Wenger Feeds' Hempfield Mill Achieves Safe Quality Food Certification

Rheems, PA (May 31, 2022) – Wenger Feeds, LLC is pleased to announce that its Hempfield Mill has achieved Safe Quality Food (SQF) Certification. Recognized by the Global Food Safety Institute, the SQF family of food safety and quality codes are designed to meet retailer and buyer needs.

The Hempfield Mill joins Wenger's Rheems Mill, which became the first commercial feed mill in the United States to achieve SQF certification for poultry and swine feeds in 2015.

Both mills are now certified to Safe Food/ Safe Feed FSC 34 Manufacture of Animal Feeds and will be audited once a year.

The certification aids Wenger customers in differentiating themselves in the very competitive retail marketplace. By sourcing their animal nutrition from an SQF certified feed mill, Wenger's customers can promote the quality and safety of their products while also meeting retailer and end consumer requirements and preferences.

Senior Vice President and Chief Nutrition Officer Dr. Raj Kasula noted, "Initiatives such as the SQF certification are in alignment with our strategic intent of helping our customers differentiate themselves in addition to reinforcing confidence in Wenger Feeds' commitment to quality and food safety."

The Wenger Group, Inc. is a leading family-owned agricultural products and services organization, which includes Wenger Feeds, LLC, Nutrifly, LLC, Dutchland Farms, LLC, Risser Grain, LLC, and Hooper Feeds. With over 450 team members and ten feed milling locations in two states, the company is a regional provider of poultry, swine, and dairy feeds, performance ingredient solutions, conventional and specialty eggs, grain, fertilizer, and allied services in the Mid-Atlantic Region.
