FOR IMMEDIATE RELEASE

Wenger Feeds Welcomes Tim Kelly as Dairy Business Manager

Wenger Feeds, LLC, a member of The Wenger Group, Inc., is pleased to announce the addition of Tim Kelly as Dairy Business Manager. Tim will lead the Dairy Business Unit of the Company reporting to Dr. Raj Kasula, Vice President and Chief Nutrition Officer.

A resident of New Wilmington, PA, Tim most recently served as Eastern Regional Sales Manager for Provita Supplements and has held a variety of progressive leadership roles in ag services and ingredient sales with leading agricultural companies such as Chr Hansen and Nutriad (Adisseo). He earned a Master of Science degree in Agricultural Economics from Purdue University and a Master of Business Administration degree from Indiana University's Kelly School of Business. He will oversee a large and growing team of seasoned dairy sales and nutritionists and drive Wenger Feeds growth in the dairy segment.

Wenger Feeds, an established feed and nutrition provider for over 75 years with 10 feed mills in the Mid-Atlantic, has a dominant market share in poultry and swine feed. In 2019, Wenger Feeds committed its thriving mills in Gordonville, Benton, and Martinsburg to servicing the dairy segment. Wenger Feeds has made significant investments in 2020 in upgrading its Benton Mill to better serve the dairy segment. In addition, the Wenger Dairy Business unit comes with a dedicated Forage Laboratory and infrastructure and expertise out of their state-of-the-art Nutrition and Quality Laboratory at their parent company's corporate office in Rheems, PA.

Vice President and Chief Nutrition Officer Dr. Raj Kasula noted, "The dairy segment of Pennsylvania is unique with its diverse producer mix, which calls for a wide spectrum of expertise, tools and support services to be successful. Wenger Feeds is well placed and differentiated from its competition with its strategically located dairy feed mills, and capabilities across procurement, nutrition, manufacturing, quality, laboratory, transportation, and customer service. Tim's extensive experience in agribusiness and, specifically, the dairy segment is an asset to our company as we grow our dairy team and serve this new customer segment with best-in-class nutrition."

The Wenger Group, Inc. is a leading family-owned agricultural products and services organization, which includes Wenger Feeds, LLC, Nutrify, LLC, Dutchland Farms, LLC, Risser Grain, LLC, and Hooper Feeds. With over 450 team members and ten feed milling locations in two states, the company is a regional provider of poultry, swine, and dairy feeds, performance ingredient solutions, conventional and specialty eggs, grain, fertilizer, and allied services in the Mid-Atlantic Region.
